

FALL REGISTRATION BEGINS TO-MORROW

Importance of Coming Elections Makes Full Response of Vital Interest.

ENROLLMENT NEEDED TOO

Only Those Who Participate Will Have a Voice in Presidential Primaries.

Registration for the November election and enrollment for the Presidential primaries next spring and the regular primaries on the following September will begin in New York city to-morrow. On every day through the week, except Saturday the booths will be open from 9 P. M. until 10:30 P. M. On Saturday they will be open from 7 A. M. until 10:30 P. M. Qualified voters may register and enroll in the places in which they will vote in November, lists of which appear in the local newspapers.

No person who does not register may vote in November. No person who does not enroll may vote in his party primary. No person may enroll until after he has registered. As soon as the person is properly registered an enrollment blank is given him, upon which he (or she) may indicate the party in which enrollment is desired. This is deposited with the election inspectors. There will be no supplementary enrollment this year.

In rural communities and towns and cities of less than 5,000 population where personal registration is not required voters may enroll in their various parties at the time they vote in November.

Those Who May Register.

Qualified voters, who alone may register and enroll, are described by the election law as follows:

"A qualified voter is a citizen who is or will be on the day of election twenty-one years of age and who has been an inhabitant of the State for one year next preceding the election, and for the last four months a resident of the county and for the last thirty days a resident of the election district in which he or she offers his or her vote.

"If a naturalized citizen, such person must, in addition to the foregoing provisions, have been naturalized at least ninety days prior to the day of election.

"An unnaturalized woman married to a native born citizen or to a naturalized citizen can register, enroll and vote, provided, however, that she shall have been an inhabitant of the United States for five years prior to the general election, and for the last thirty days a resident of the election district in which she offers her vote.

"A woman born or naturalized citizen of the United States, retains such citizenship on the termination of such marriage relation by death or divorce, if she continues to reside in the United States.

"A woman born of American parents who is married to a foreigner loses her citizenship in the United States during the existence of such marriage.

Every woman claiming citizenship by marriage must be prepared to furnish affidavits at the time she registers, giving the facts in regard to such marriage.

Important Offices Explaining.

Registration to qualify for voting is important because of the fact that two members of the Board of Estimate are to be elected in November in addition to Judges, county officials and members of the Assembly and of the Board of Aldermen.

It is important to enroll this week because of the fact that it gives party members the opportunity to vote for delegates to their national conventions, which will choose candidates for President of the United States. These delegates are chosen at primaries next spring. Each enrolled voter will have opportunity of voting for four delegates at large and four alternates at large and for two district delegates to represent the particular Congressional district.

In addition to this the enrolled voter will have the opportunity in the spring primary of voting for members of the party State committees, composed of one member from each Assembly district and for members of the local county committees. The new State committees elected at that time will choose the Presidential electors and alternates.

Any persons failing to qualify themselves by enrollment now to vote in the spring primaries may regret it bitterly in case any contests should develop over the question as for whom the delegates from New York State should vote for candidate for President in the national convention of their party.

Furthermore the enrollment next week is the only chance voters will have to qualify themselves to vote in the autumn primary of their party at which time candidates for Governor, United States Senator and other State officials and for local officials will be chosen.

Later Registration Up-State.

Outside of New York city in all places where personal registration is required, that is in cities and villages of 5,000 or more, the registration and enrollment days are October 10, 11, 17 and 18, the booths being open from 7 A. M. to 10 P. M. of each day.

Political leaders of all parties have taken steps to see that the voters do not

neglect the registration and enrollment. In this city the executive committee of the local organizations met last week to lay plans for arousing the voters to their opportunities and duties in this respect.

Samuel S. Koenig, Manhattan, chairman of the Republican County Committee, points out that the voters must not consider this an off year when they may neglect their duty. In the first place there are four constitutional amendments to be voted upon. The election of two members of the Board of Estimate—a President of the Board of Aldermen with three votes and a Borough President for Manhattan with two votes—is vitally important. These officials would hold the balance of power in all matters where a three-fourths vote of the sixteen votes in the Board of Estimate is required.

In the First Judicial District, comprising the boroughs of Manhattan and The Bronx, a sharp issue of a free judiciary has been raised by Tammany Hall in turning down Justice Joseph E. Newburger for re-nomination to the Supreme Court, after twenty-eight years service, in favor of the 33-year-old son of Samuel Untermyer.

In addition there are to be elected three City Court Justices in this district, and here too Tammany turned down a sitting Justice, Richard H. Smith, who, although a Democrat, was not considered one of "the faithful." And independent county judges, which has been organized to aid in the reelection of these Justices, who were renominated by the Republicans, declares it to be the duty of every good citizen to register this week in order that he or she may assist in rebuking Tammany for its rejection of two able and tried Judges.

Three Surrogates to Be Chosen.

Then a Surrogate, a most important judicial officer, is to be elected in Manhattan but also in Brooklyn and The Bronx. In Brooklyn there is an election county ticket to be chosen on November 4, and two county judges. There is one Justice of the Supreme Court to be chosen in the Second District, and local officials in the other boroughs also to be elected.

Every second year a Board of Aldermen, an important body in the making of local laws and in the expenditure of the city's money, is elected. This is the year.

Assemblymen are to be chosen in each Assembly district, and in Queens one State Senator to fill a vacancy.

Two of the four constitutional amendments which are to be voted on in November have to do with salaries of State officers. The first increases the salaries of the Judges of the Court of Appeals to \$17,500, the same as that now received by the sitting Justices of the Supreme Court in New York city.

The Chief Judge now gets \$10,500, and the Associate Judges \$10,000. In addition they all now receive allowances of \$3,700 a year for expenses. If the amendment is passed these will be included in the \$17,500.

The second amendment increases the salaries of members of the Legislature from \$1,500 to \$2,000 a year, with an additional allowance of \$2,000 for the Speaker of the Assembly.

Under a fourth amendment the Legislature would have power to pass a law providing for the voting of persons absent from their homes on election day because of the character of their occupations, commercial travellers and the like.

The last amendment would give the Department of Agriculture the right to assess upon property benefited the cost of draining swamps.

Last Year's Registration 1,015,148

The registration by boroughs in New York city a year ago was:

	Men.	Women.	Total.
Manhattan	447,722	140,256	587,978
Brooklyn	447,722	140,256	587,978
Queens	14,758	7,222	21,980
Total	899,472	287,734	1,187,206

A comparison of the figures for the year 1918, which was the first time that the women had the right to vote, with those of 1917 seemed to indicate that they had not taken advantage of their opportunities to the fullest extent. A special drive is being made to get the women to come out this year. The Republican women leaders are going to try to get an additional ten women registrations and enrollments in each election district.

Because of this fact and the desire of all voters to qualify for the Presidential primaries, as well as to vote this fall, the leaders are looking for an unusually large registration for an off year.

Owing to rental conditions the Board of Elections has had more than the usual difficulty in finding polling places this year. At least forty-two portable houses, to be erected in the streets, will be used. The number of election districts in the city for this election has been fixed at 2,567.

Because of the unsettled conditions in the printing trades the Board of Elections may have trouble in the printing of the ballots for November 4, bids for which will be received on October 16.

Registration Awaits Ratification.

PARIS, Oct. 4.—All German prisoners still detained in France will be repatriated directly after the ratification of the peace treaty, according to information received from Berlin. The Swiss Legation in Paris, however, has information to this effect to the central office for prisoners of war for transmission to Germany.

Favors Norway Joining League.

CHRISTIANIA, Oct. 4.—The Parliamentary committee appointed to discuss the entrance of Norway into the League of Nations has reported unanimously in favor of Norway joining the league.
